### RESUMÉ

Frontend Developer | React | Typescript | Javascript | CSS3 (Mobile First) | API | Node.  
C1 level of English, 28 years old. Dedicated and passionate about programming.  
Experience programming individually and in a group using Git Flow.

### EDUCATION

**Kenzie Academy Brasil**, *Full-Stack* | September 2022- September 2023

### PROJECTS

#### Burger Bar

Individual project | React | Typescript | Route Protection using Router Dom and Hook Form/Yup for the Forms, Components and Clean Code

**Link Vercel:** <https://hamburgueria-parte2.vercel.app/>

*Github* <https://github.com/fabioreed/Burger-Bar---React-and-Typescript>

#### Go.Donate

Group project | React | Typescript and other libraries | Git Flow

**Link Vercel:** <https://projeto-fabioreed.vercel.app/>

*Github:* <https://github.com/Go-Donate/Go-Donate>

#### Finance Tool

Individual project | React | Javascript

Finance Tool, *ToDo list* style, input and output using Reduce to add total

*Vercel* <https://nu-kenzie-dusky.vercel.app/>

#### Kenzie Hub

Individual project in React using a real API to register and login the user with React-Hook-Form and Yup to validate the registration. As well as route protection and auto login with Router Dom. It is also possible to create technologies that the user knows, read, edit and delete (CRUD)
